We never take for granted and love the surprise when a donor sends or better yet, delivers a contribution with a very heartfelt note attached. For the Clinic, each day presents an opportunity to do good. Our Board, staff, volunteers and community recognizes the need for our services and we are grateful...

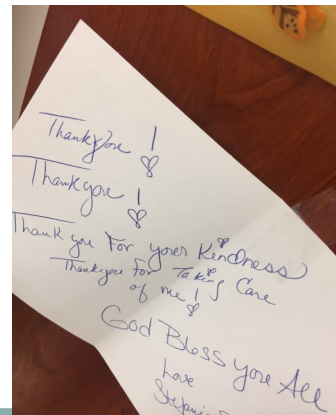

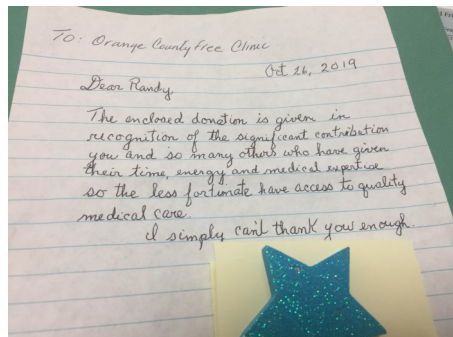

**Dr. Randy Merrick,
Board President**

You make it all possible when, in your own way, you recognize the work we do. Whether it is financial; participating in an event; donating time, goods or your services; and volunteering -all help make what we do a little easier. Our patients recognize changes (big or small) and are appreciative most of all.

The Holiday Season is upon us and 2019 will soon be at a close, so at this time, we'd like to say how much we appreciate the Orange County community and it's generosity toward those who now have access to healthcare! So many people depend on us and not just for health services. We routinely assist with difficult situations requiring advocacy and coordination with other community partners. It's what we do! We are so proud to call Orange County "home"! Please continue to include us in your annual giving and know that your gifts are truly "Gifts of Life".

**Dorren Brown,
Executive Director**

"It's always important to add to the community woodpile." - Erskine Bowles—Former President University of North Carolina (about his Dad and how in the Old South when you went out to chop firewood for your own family, you'd always throw a few logs on the community woodpile.

With Gratitude

From our family to yours, we wish you all a very happy, healthy and safe holiday season!

THE POWER OF CHANGE

**Rappahannock
Electric Cooperative**

A Touchstone Energy® Cooperative

OCFC received \$7500 from the CARE Charity Inc. as part of the 2019 "Power of Change" grant program. The grant is made possible through the generosity of Rappahannock Electric Cooperative (REC) Members who allow their bills to be rounded up so that C.A.R.E. Charity, Inc can disperse funding to non-profits doing work in the community! OCFC asked for support to help with it's Diabetes Care Program including supplies. Diabetes affects over 45% of the Clinic's Chronic Care patients.

Clinic Notes

When the Clinic was organized in 2007, the founders determined and have remained steadfast that OCFC should be a **community based** health care provider and remain "free" to those who need health care! We look to the generosity of our local community and individuals! So thank you for your support!

Over the years, the Clinic has grown with the increase in need from our community. As the Healthcare environment changes, so do we! Uninsured and under-insured patients routinely seek care for their chronic conditions and need assistance with unaffordable medications. The Clinic provides both acute and chronic care for it's patients and is a proud healthcare home to over 3500 enrolled patients!

Dedication Opportunity

Support the work we do by dedicating a room like the Lab (above) at the Clinic to honor a loved one.
